A junior iOS developer interested in mobile applications and end user experience. Seeking opportunities to build upon the skills I gained attending Lighthouse Labs' iOS Bootcamp. Creative thinker with a passion for finding working solutions to various problems. I bring with me skills learned in my previous career, including project management, graphic design and back office management.

SUMMARY OF SKILLS

- Programming languages: Swift, Objective-C, HTML
- Databases: SQLite, Parse
- Software: Xcode, Git, Slack, Trello, Affinity Photo/Designer/Publisher
- Studies: History and theory of design, project management, video and photo editing, digital illustration, and typography
- 2 years print and digital design services
- 4 years managing confidential records, including collection, archival, and secure access for a wide range of use cases
- 4 years supporting consumer and enterprise users in face-to-face and call centre environments

PROJECTS

Cold Showers helps a user get into a daily routine of light exercise and mindful meditation. Developed with a fellow student as a final project for an iOS development bootcamp. **Tech stack:** Swift, Core Data, CloudKit
Currently in Progress

Shopping List organizes your day-to-day errands. The app was developed with a fellow student as a midterm project for an iOS development bootcamp. **Tech stack:** Swift, Realm DB, CocoaPods, Objective-C
